a Tahoe-100M · Biological-context generalization
Compounds in train for evaluation cell lines (348 compound–concentration pairs)
Compounds in test for evaluation cell lines (735 compound–concentration pairs)
Evaluation cell lines (5)
Training cell lines (45)
TEST
TRAIN
Cell lines (50)
Compounds × concentration (1,137), control first
b Tahoe-100M · Perturbation generalization
Training compounds (339, 3 concentrations each)
Evaluation compounds (40, 3 concentrations each)
Cell lines (50)
TRAIN
TEST
Cell lines in test for evaluation compounds (30)
Cell lines in train for evaluation compounds (20)
Compounds × concentration (1,137), control first
c PBMC cytokine atlas · Biological-context generalization
Cytokines in train for evaluation donors (25)
Cytokines in test for evaluation donors (61)
Evaluation donors (4)
Training donors (8)
TEST
TRAIN
Donors (12)
Cytokines (90), control first
d PBMC cytokine atlas · Perturbation generalization
Training cytokines (60)
Evaluation cytokines (30)
Donors (12)
TRAIN
TEST
Donors in test for evaluation cytokines (7)
Donors in train for evaluation cytokines (5)
Cytokines (90), control first
Train
Test
Validation
